

WFOT Congress 2022 Programme								
SUNDAY 28 AUGUST 2022 - CONGRESS DAY 1								
700	Registration Open							
0830 - 1900	Exhibition Open							
0900 - 1030	<b>Plenary: Official Welcome / Congress Opening</b>							
	<b>Keynote Presentation: A/Prof Ana Malfitano</b>							
	An anthropophagy of knowledge proposition in occupational therapy: Driving our actions towards social life <i>Une proposition d'anthropophagie des savoirs en ergothérapie : Conduire nos actions vers la vie sociale</i>							
	Room: North Paris							
1030 - 1100	<b>Refreshment Break Pause rafraîchissement, Exhibition Hall</b>							
1100 - 1300	<b>Plenary: WFOT Symposia Session de la WFOT</b>							
	Room: North Paris							
1300 - 1400	<b>Lunch Déjeuner - Posters, Exhibition Hall</b>							
1400 - 1530	<b>Concurrent Session</b>							
	<b>SE-01</b>	<b>SE-02</b>	<b>SE-03</b>	<b>SE-04</b>	<b>SE-05</b>	<b>SE-06</b>	<b>SE-07</b>	<b>SE-08</b>
	Occupational justice/human rights/equity/social inclusion <i>Justice occupationnelle/droits de l'Homme/équité/inclusion sociale</i>	Infants, children, youth, and families <i>Nourrissons, enfants, jeunes et famille</i>	Transformative occupational therapy education <i>Formation à l'ergothérapie transformationnelle</i>	Ageing <i>Vieillesse</i>	Technology <i>Technologie</i>	Revolutionising rehabilitation <i>Révolutionner la rééducation-réadaptation</i>	Health promotion, public health and health services <i>Services de promotion de la santé, de santé publique et sanitaires</i>	Mental health and wellbeing <i>Santé mentale et bien-être</i>
	<b>Mandy Graham</b>	<b>Fiona Loudoun</b>	<b>Debbie Kramer-Roy</b>	<b>Brenda Vrkljan</b>	<b>Iris Vanheel</b>	<b>Elizabeth Peterson</b>	<b>Parisa Ghanouni</b>	<b>Alexandra Lecours</b>
	Occupational justice for mothers: the value of occupational therapy within perinatal mental health services in the UK	Install, Download, Play: A scoping review of the occupational nature of digital play for children and young people.	The European MSc in Occupational Therapy: Moving and Improving with the Times	Advancing the role of occupational therapy for lifelong community mobility: Building global bridges	OT-PRO: a revolutionary, innovative digital tool for and by occupational therapists	Leading change in fall prevention for special populations: Process evaluation of an online fall management program for full-time wheelchair and scooter users with multiple sclerosis	Healthcare services to support transition of individuals with autism to adulthood	Habiliter les travailleurs à préserver leur santé mentale : Quelles sont les interventions réalisées par les ergothérapeutes ?
	<b>Rebecca Renwick</b>	<b>Michelle Thompson</b>	<b>Cristina Smith</b>	<b>Barbara Mazer</b>	<b>Ann Chapleau</b>	<b>Denise Justice</b>	<b>Asnat Bar-Haim Erez</b>	<b>Dorit Redlich Amirav</b>
	Using an inclusive research approach to understand belonging through sport occupations for young adults with intellectual and developmental disabilities	Effects of a parent-implemented intervention on preschool children's occupational engagement in constructive play in home settings	Data-Driven DEI: Evidence-based Strategies to Increase the Number of Students from Under-Represented Backgrounds in OT Academic Programs	Community mobility and changes in out-of-home participation in older adults: An international study	Using Goal Attainment Scaling during fieldwork: An interdisciplinary study	Proper prone positioning reduces brachial plexus and peripheral nerve injuries for critically ill patients with COVID and other disorders	Not only cancer: functional implication of Risk Reducing Mastectomy in women with BRCA mutation	In face of a conflict area: Mothers' experiences of hope
	<b>Christophe Wille</b>	<b>Émilie St-Arnaud-Trempe</b>	<b>Jean-Michel Caire</b>	<b>Tadhg Stapleton</b>	<b>Adriana Rincon</b>	<b>Sarah Innes</b>	<b>Merry Kalingel Levi</b>	<b>Ellen Cruyt</b>
	Meaningful Activities 4 All, A quantitative study on the support needs of staff working in day-care facilities for people with intellectual disabilities	Les co-occupations ludiques parent-enfant à travers le regard des parents d'enfants ayant une déficience motrice	La R-Evolution Universitaire et le sens pratique des ergothérapeutes : Etude Delphi sur les activités essentielles en ergothérapie en France.	Use of the UAB Life Space Assessment to address community participation among older adults	Using artificial intelligence to assess engagement	Assertive outreach and harm reduction: Revolutionising rehabilitation for people with alcohol related brain damage	"When I'm in pain, everything is overwhelming: Perceptions and coping strategies with pain among adults with Autism.	Meaningful activities during COVID-19 lockdown and association with mental health in Belgian adults.
	<b>Fiona Maclean</b>	<b>Jennifer Pitonyak</b>	<b>Rebecca Sinko</b>	<b>Hester van Biljon</b>	<b>Jacki Liddle</b>	<b>Sabrina Maurel-Techene</b>	<b>Izumi Oki</b>	<b>Narges Shafaroudi</b>
								<b>Humanitarian Responses</b>
								•Coordinating resources, rehabilitation and assistive technology •Working with Displaced Persons / Disaster Management

	Realising Scotland's policy potential to R-Evolutionise international rights-based dementia care.	Occupational determinants of family life course health development: Parent perceptions of contextual influences on daily occupational routines	Facilitating professional development, clinical competence, cultural responsiveness and confidence in occupational therapy students utilizing a service learning and peer-coaching approach while serving children in an after-school program	Unmet community mobility needs of older adults from a health equity perspective. A scoping review.	Codesigning technologies to support communication, connection and participation of people living with dementia	Etude en single case experimental design par l'approche cognitive orientation to daily occupational performance chez l'adulte cérébro lésé avec atteinte des fonctions exécutives	Exploring health as a underpinning concept in the do-live-well framework and a comparative explanation with the concept of health in Japan	Effect of occupational therapy on self-determination skills of adolescents at risk of emotional and behavioral disorders: A randomized controlled trial
	<b>Marianne Sund</b>	<b>Anoo Bhohti</b>	<b>Julie Gray</b>	<b>Anne Dickerson</b>	<b>Anqin Dong</b>	<b>Patty Coker-Bolt</b>	<b>Dorothy Kessler</b>	<b>Rachel Davis</b>
	Everyday citizenship for persons with dementia living in nursing homes - the contrasts of everyday living	"We Care" workshops for parents of children with Autism Spectrum Disorder: Supporting and building parental capacity and re-engaging in parent occupations - A repeated measures pretest-posttest study	Collaborative design and cultural adaptation of an entry-level master's curriculum in occupational therapy to develop socially responsive leaders: An educational partnership between the United States and China	Use of the AMPS for Determining Fitness to Drive	Efficacy of the combined motor imagery and action observation intervention on vascular cognitive impairment	Improving Quality of Life for Children with Cerebral Palsy in Vietnam: Implementation of Intensive Models of Rehabilitation	Time use and activity patterns during the COVID-19 pandemic	International long-term volunteering as an occupation: A qualitative study of the connection between volunteering in post-Jungle Calais and volunteer's subjective experience of well-being
	<b>Itumeleng Tsatsi</b>	<b>Grace Baranek</b>	<b>Denise Nepveux</b>	<b>Tim Xu Tianma</b>	<b>Christina Athanasopoulou</b>	<b>Orit Segev-Jacobovski</b>	<b>Vita Hagelskjær</b>	<b>Bethrese Elane Padini</b>
	An action research approach to optimizing a halfway house to meet the occupational needs of male mental health service users	Parents and Infants Engaged (PIE): A novel home-based early intervention supporting caregiver responsiveness to sensory reactivity and preverbal cues for infants at-risk for autism	Ati Deka: Results of a Pilot Project of Ghana-US Allied Healthcare Student Collaboration	The impact of mobility scooter on occupational performance and engagement among older adults in Singapore: an exploratory study from an occupational therapy perspective	Occupational Therapy portrayal on Google	What predicts rehabilitation outcomes after Total Hip Replacement: Positive psychological factors or depression?	Effectiveness of the ABLE intervention program addressing decreased ADL ability: a randomised controlled trial	Facilitating wellness, belonging, and empowerment through occupational therapist-led peer mentorship program for university students with disabilities
	<b>Diego Cifuentes</b>	<b>Marco Pastori and Marco Lodi Pasini</b>	<b>Melisa Kaye</b>	<b>Els Knippenberg</b>	<b>Nigel Riordan</b>	<b>Annabelle Cassidy</b>	<b>Shawn Roll</b>	<b>Georg Gappmayer</b>
	A post-pandemic paradigm: Insights from the south of the globe	Ready2Play: soccer participation for children with disability. An occupational therapy project.	Concept mapping to enhance meaningful learning in occupational therapy education	Motivating elderly to perform physical activity through a technology-based system.	Using Plan-Do-Study-Act (PDSA) cycles to optimise occupational therapy wheelchair and seating service delivery in an acute hospital setting	Feasibility of implementing Pathways and Resources for Engagement and Participation (PREP) intervention with young adults with a complex disability in Australia.	Well-being and inclusion in the built environment: Integrating an occupational perspective into an emerging transdisciplinary field	ZEPS: Experiencing Belonging - Creating Perspectives. An innovative group concept for enabling social participation.
	<b>MARY STYLIDI</b>	<b>Amber Angell</b>	<b>Susan Mulholland</b>	<b>Deborah Bolding</b>	<b>Atieh Razavi Yekta</b>	<b>Mary Forhan</b>	<b>Sheama Krishnagiri</b>	<b>María Ciampa</b>
	Person With Disabilities in Syria: Occupational Therapy Challenges And Solutions	"We're just willing to try anything and see where it goes" : Shared decision-making among Latinx families of children with autism using traditional and complementary medicine	Evidence for the use of virtual reality to reduce student test-anxiety	Older adult travel: Motivations, patterns, and barriers	The gig economy and the changing nature of jobs: Critically exploring the occupational experiences of immigrant gig workers and the shifting role of supporting social services	Positioning Occupational Therapy in the Treatment and Management of Obesity	Improvising life for health and well being in the era of a global pandemic	Work accommodations and natural supports of people with serious mental illness
	<b>Tim Barlott</b>	<b>Dinesh Krishna</b>	<b>Arameh Anvarizadeh</b>	<b>Christian Pozzi</b>	<b>Margriet Pol</b>	<b>Sophie O'Keefe</b>	<b>Kelcie Kadowaki</b>	<b>Sara Pezzarini</b>
	Becoming-complicit: Micropolitical allyship in mental health	Parent WhatsApp groups in an early intervention community-based program in rural South India during the COVID-19 pandemic: a pilot study	Establishing best practices for holistic admission within occupational therapy educational programs to advance diversity and inclusion in the profession.	Moving and doing in an Acute Geriatric ward: the potential for a Mobility Team to improve occupational performance and patient autonomy	The effectiveness of e-Health supported home-based geriatric rehabilitation on improving daily performance: the eHBGR-study	The feasibility of providing early vocational interventions during inpatient neurorehabilitation.	Increasing the visibility and accessibility of occupational therapy services to college students through on-campus primary care consultations	L'importance de l'équilibre occupationnel au sein des familles victimes de dépendances : Une revue narrative de la littérature.

	<b>Mégane Vasseur</b>	<b>Tri Budi Santoso</b>	<b>Rebecca Aldrich</b>	<b>Robin Bairet</b>	<b>Carolina Alonso</b>	<b>Yani Hamdani</b>	<b>Arlene Schmid</b>	<b>Nadine Lariviere</b>	
	Regards croisés sur la prise en charge des adultes en situation de déficience intellectuelle dans les services des hôpitaux généraux	Daily Occupational Balance of Mothers of a Child with Autism Spectrum Disorders	Revolutionizing occupational therapy education in response to intersecting pandemics: Developing a new special topics course to meet emergent teaching and learning needs	Les enjeux de mobilité chez les aînés d'un quartier de Montréal : perspectives d'aînés impliqués dans un laboratoire vivant.	Qualitative analysis of exoskeleton introduction in a Brazilian industry: Preliminary results	Reframing meaningful occupation: revolutionizing occupational therapy practice for adults labeled as disabled	Yoga and self-management education for dyads with chronic pain improves occupational performance and satisfaction	Coordination nationale d'ergothérapeutes canadiens.es pour faire avancer notre contribution dans la prévention du suicide	
<b>1530 - 1600 Refreshment Break Pause rafraîchissement, Exhibition Hall</b>									
<b>1600 - 1730 Concurrent Session</b>									
	<b>SE-10</b>	<b>SE-11</b>	<b>SE-12</b>	<b>SE-13</b>	<b>SE-14</b>	<b>SE-15</b>	<b>SE-16</b>	<b>SE-17</b>	<b>SE-18</b>
	<b>Occupational justice/human rights/equity/social inclusion Justice occupationnelle/droits de l'Homme/équité/inclusion sociale</b>	<b>Infants, children, youth, and families Nourrissons, enfants, jeunes et famille</b>	<b>Transformative occupational therapy education Formation à l'ergothérapie transformationnelle</b>	<b>Inclusive workplaces Milieux de travail inclusifs</b>	<b>Professional development and capacity building Développement professionnel et renforcement des capacités</b>	<b>Implementation science/knowledge translation Transfert des connaissances</b>	<b>Leadership, advocacy and agents of change Leadership et management</b>	<b>Community development Développement communautaire</b>	<b>User perspectives and experiences Perspectives et expériences des utilisateurs</b>
	<b>Amy Hodges</b>	<b>Shilpa Jacob</b>	<b>Mariah Morris</b>	<b>Michelle Berger</b>	<b>Myriam Chrétien-Vincent</b>	<b>Sarah Zera</b>	<b>Hassan Sarsak</b>	<b>Joseph Nshimiyimana</b>	<b>Thais Pousada</b>
	Evaluating the preliminary effectiveness and feasibility of a school-based intervention to improve the school participation and feelings of connectedness of primary school students on the autism spectrum: A feasibility study.	Complexity of influencers for rapport development in children with Autism Spectrum Disorder: An occupational therapy perspective	Going global: How the COVID-19 pandemic transformed a graduate occupational science course into a global classroom	Exploring the doing, being, becoming, and belonging of new mothers after returning to work	Promoting participation of children in daycare centres through educators' capacity building	Implementation of a Cognitive Orientation to Daily Occupational Performance (CO-OP) group for adults recovering from stroke in DayRehab: A pilot study	Healthcare Professionals Knowledge and Perception of Occupational Therapy	Factors influencing community reintegration after spinal cord injury in Rwanda	The approach of sexuality with persons with Acquired Brain Injury in chronic stage opportunities through the Occupational Therapy
	<b>Shaminder Dhillon</b>	<b>Snæfrídur Egilson</b>	<b>Debora Galvani</b>	<b>Stijn Baets</b>	<b>Karen Morris</b>	<b>Dinja van der Veen</b>	<b>Bryant Edwards</b>	<b>Helga Lister</b>	<b>May Stinson</b>
	Texts influencing the accommodation process of students with disabilities in professional rehabilitation programs: A discourse analysis	Life quality and participation of disabled children and young people	Digital resources for implementing academic training of social occupational therapy, education and interculturalities at the Federal University of São Paulo during the COVID-19 pandemic	Patient perspectives on employment participation in the "hypermobile Ehlers-Danlos syndrome"	Sustaining an international research mentor relationship for a decade – hints and tips	Improving the quality of home-based rehabilitation after stroke: lessons learned from a Dutch study	Leading through change: Expanding our practice to lead through an occupational lens	A co-constructed narrative – a family, a PhD researcher/occupational therapy lecturer and a social worker employed at a university-managed community substance use programme – lives forever changed	Transition to practice during the Covid-19 pandemic: the views of healthcare students
	<b>Dalia Sachs</b>	<b>Christina Scholtz</b>	<b>Sarah-Jayne Rowe</b>	<b>Saeideh Shahin</b>	<b>Sarah Lawson</b>	<b>Vivian Neumann and Karla Hernandez</b>	<b>Karly Emmanuel JEAN</b>	<b>Makoto Kono</b>	<b>Brittany Inouye and Abraham Ramirez</b>
	Accessible Higher Education for Students with Disabilities: Attitudes and Practices of Faculty	Development of a clinical measurement tool for measuring voluntary eye movements in typical infants six month of age	An exploration of occupational therapy students' experience of fieldwork placement during the COVID-19 crisis in United Kingdom	The impact of the environment on participation in the workplace among transition-aged young adults with disabilities: A scoping review	The TRAMM Model: encouraging Occupational Therapists' motivation and engagement in Continuing Professional Development (CPD)?	Translation and Adaptation to Chilean Spanish of Loewenstein's Dynamic Cognitive Assessment of Occupational Therapy (DLOTCA).	Exercer un leadership collaboratif : complicité entre stagiaires de réadaptation du Québec et d'Haïti afin de porter attention aux personnes en situation de handicap en Haïti	Activating Community in Disaster Situation: Envision of Community Based Anarchistic Occupational Therapy	Effects of distance learning on international students during the COVID-19 pandemic
	<b>Meghan Blaskowitz and Ariana Amaya</b>	<b>Belinda Deramore Denver</b>	<b>Laura VanPuymbrouck</b>	<b>Catherine George</b>	<b>Deb Hearle</b>	<b>Marc-Olivier Castonguay</b>	<b>Joan Sauvigne-Kirsch</b>	<b>Anneleen Leyman</b>	<b>Tibor Kafel</b>

	The Impact of Inclusive Post-Secondary Education on the Social Participation and Life Skills of Adolescents with Intellectual and Developmental Disabilities	Designing the Measure of Early Vision Use for children with cerebral palsy	"I had to adapt to continue being a student to the best of my ability": Identifying occupational therapy students' processes of adapting to academic disruption	Definitions and conceptualization of context- A scoping review	Continuing Professional Development (CPD): passive participation or active engagement?	Guide for Therapeutic Group Facilitation in Occupational Therapy on the Addiction Medicine & Addiction Psychiatry Hospitalization Unit at the Montreal University Hospital Center	Overcoming barriers and creating leadership pathways in school-based practice, lessons learned	"Singularly delicious": cooking for stroke survivors	Infected with COVID 19 during rehabilitation: a qualitative study
	<b>Tahmineh Mousavi</b>	<b>Vanessa Jewell</b>	<b>Yvonne Thomas</b>	<b>Alicia Swart</b>	<b>Liat Gafni-Lachter</b>	<b>Natalie Leland</b>	<b>Jon Pearlman</b>	<b>Madison Potthoff</b>	<b>Iesrafeel Abbas</b>
	The role of occupational therapy in capabilities-based inclusive education	Evaluation of a Novel Telehealth Intervention for Type 1 Diabetes Health Management	Future proofing practice education	Barriers and facilitators of engaging in remote work in the open labour market for paid employment, as experienced by persons with spinal cord injuries within the Gauteng Metropole, South Africa.	Online peer mentoring: Evidence for effectiveness in promoting R-evolution in career and satisfaction	Fostering nursing home care quality: Using the Health Equity Implementation Framework to design and execute an intervention for residents with Alzheimer's disease and dementia	The International Society of Wheelchair Professionals: Achievements and Challenges.	The integration of occupational therapy in community development programs	The experiences of individuals with schizophrenia using the Model of Occupational Self-Efficacy in enhancing work skills
	<b>Janna MacLachlan</b>	<b>Lucieny Almohalha</b>	<b>Liliya Todorova</b>	<b>Musaed Alnaser</b>	<b>Angela Cecil and Godfrey Kimathy</b>	<b>Susanne Zeggelaar</b>	<b>Kaarina Valavaara</b>	<b>Vivek Vajaratkar</b>	<b>Phyllis Liang</b>
	Untangling the power of rehabilitation professionals working with Inuit children: A focus on relationships	Sensory Profile 2 cross-culturally adapted for Brazilian children	Turning challenges of online education into opportunities: the Bulgarian experience	Occupational therapy students' knowledge Vs. performance in manual patient transfers	R-Evolutionizing international collaboration through professional development	Trial and error; why not learn without error?	Leading a path toward reconciliation between occupational therapy and Indigenous Peoples in Canada: A national occupational therapy truth and reconciliation taskforce.	The Development and evaluation of intervention module on Sensory Processing Disorders as a part of comprehensive Autism intervention package for the community based lay health workers.	"I should not go out": Experiences of stroke during the COVID-19 pandemic
	<b>Brittany St John</b>	<b>Anat Golos</b>	<b>Fasloen Adams</b>	<b>Naomi Algeo</b>	<b>Sissel Horghagen</b>	<b>Christina Schulze</b>	<b>Saniya Nadkarni</b>	<b>Lisa Wegner</b>	<b>Stephen Shore</b>
	Benefits of adapting a parent-mediated feeding intervention to a telehealth model: Increasing accessibility and integration into family routines.	Participation profile of children and youth, aged 6–14, with and without ADHD, and the impact of environmental factors	Changing face of occupational therapy education in South Africa due to the Covid-19 pandemic.	The development and feasibility of the occupational therapy-led 'work and cancer' programme: A mixed-methods study	Dilemmas experienced by occupational therapists in community health services in relation to generalist, specialist, and generic positions	"Re-evolutionary use of assessments": Translating, adapting and implementing participation assessments into practice	Lessons learned about inclusive education and the role of occupational therapy: A secondary analysis of qualitative data	"We are far from things!": Occupational engagement among rural youth in South Africa	Senses and Sensibilities: An Inside, Experiential View on Recognizing and Supporting Individuals with Sensory Issues
	<b>Alice Moore</b>	<b>Pei-Ya Cheng</b>	<b>Margaret Goodfellow</b>	<b>Julia Sterman</b>	<b>Aikaterini (Katerina) Veneri</b>	<b>Beate Krieger</b>	<b>Gail Whiteford</b>	<b>Hanneke van Bruggen</b>	<b>Karen Keptner</b>
	Tackling play inequalities in community playgrounds: A scoping review of evidence to explore the role of universal design in supporting outdoor play, social participation, and inclusion	The effects of environmental factors on children's self-care performance	Opening classroom borders during the COVID-19 Pandemic: A qualitative analysis of how an online globalized course curriculum deepened students' understanding of occupation	Anti-racism actions for occupational therapists in practice and higher education: A scoping study	Group mentoring of professionals working with refugees and asylum seekers	Turning the coin: from enabling persons to enable environments for adolescents with Autism Spectrum Disorder	Illuminating and understanding occupations in context: An analysis of the WFOT Occupational Narratives data	Maximising the impact of partnerships for community development: R-evolution through collective occupations	Individual experience and preferences in reducing anxiety: A qualitative exploration of four different techniques that includes sensory modulation
	<b>Melissa Turpin</b>	<b>Limor Rosenberg</b>	<b>Evelyn Andersson</b>	<b>Elizabeth McKay</b>	<b>Juan Marty Bout</b>	<b>Fiona McDonald</b>	<b>Diana Honorat</b>	<b>Luciana Cordeiro</b>	<b>Zorana Sicherl</b>
	Alcanzando Alturas Nuevas (Reaching New Heights): A pilot study to deliver customized instruction to special education teachers in Nicaragua	Perceived meaning of occupations: differences between children with and without developmental disabilities, and the correlations with participation in everyday activities	Occupation-based Practice in Malawi, Africa	No barriers to success: Revolutionising equitable opportunities for ethnic minority Occupational Therapists.	Death of pediatric users: A look at the experiences of The Occupational Therapists of Latin America	Critical Interpretative Synthesis as a review methodology; presenting an opportunity for the Occupational Therapy profession to interrogate current practices and theoretical underpinnings	International occupational engagement: creating an association and building Haitian leaders	Community-centred practices approach in Occupational Therapy: producing evidence towards social justice	Occupational therapy and occupational therapists during the COVID -19 pandemic
	<b>Sarah Rejman</b>	<b>Tara Sims</b>	<b>Lisa Licciardi</b>	<b>Vidya Sundar</b>	<b>Marine Lécharny</b>	<b>Dagje Boeykens</b>	<b>Yasmine Frikha</b>	<b>Pat Chung</b>	<b>Catalina Cayul</b>

	Meeting the needs of the global community through occupational revolution: The evolution of The Plaster House	Promoting occupational participation in children with dystonia: An exploration of occupational therapists in practice	Transformative allied health education during COVID-19: Barriers and enablers experienced by allied health students using telehealth with people with disability.	Job crafting: A novel coaching based intervention to improve work related outcomes of workers with disabilities	Development of a competency profile for occupational therapists working in Flemish primary care	Redesigning healthcare in Flanders to meet the needs of patients with chronic conditions: how to implement goal-oriented care?	L'identité professionnelle des ergothérapeutes appréhendée à travers le regard des « Autres »	Implementation of homecare enablement services for people with dementia in social care: interdisciplinary team experience	Mental health and COVID-19: An occupational perception from the health workers.
1730	Close of sessions								
1730 - 1900	Welcome Reception, Exhibition Hall								

MONDAY 29 AUGUST 2022 - CONGRESS DAY 2									
700	Registration Open								
0830 - 1700	Exhibition Open								
0830 - 1030	Concurrent Session								
	SE-19	SE-20	SE-21	SE-22	SE-23	SE-24	SE-25	SE-26	SE-27
	Occupational justice/human rights/equity/social inclusion <i>Justice occupationnelle/droits de l'Homme/équité/inclusion sociale</i>	Infants, children, youth, and families <i>Nourrissons, enfants, jeunes et famille</i>	Transformative occupational therapy education <i>Formation à l'ergothérapie transformationnelle</i>	Ageing <i>Vieillesse</i>	Technology <i>Technologie</i>	Revolutionising rehabilitation <i>Révolutionner la rééducation-réadaptation</i>	Professional development and capacity building <i>Développement professionnel et renforcement des capacités</i>	Implementation science/knowledge translation <i>Transfert des connaissances</i>	Research Institute: 3 Minute Thesis <i>Institut de recherche : thèse en 3 minutes</i> 
	Erin Duebel	Lee-Ann Jacobs Nzuzi Khuabi	Claire Gleeson	Michelle Bissett	Sigal Portnoy	Zelalem Demeke	Jennifer Garcia	Tiago Jesus	Sara Pocknell
	Acknowledging the past: Epistemic reflexivity and memory in occupational therapy	Enablers and barriers to high school re-entry and participation post TBI: perspectives of occupational therapists as service providers in a developing context	The need to revolutionise practice education placements: Reflections and learning from a national interuniversity collaboration to address occupational therapy placements during the Covid-19 pandemic in Ireland.	An environmental perspective of residential care transition: A scoping review	Automated patient-specific fitting of splints and assistive technology for 3D printing	Towards comprehensive rehabilitation services in Ethiopia: Establishing the first university-level occupational therapy education program.	Developing a cross-cultural approach to build capacity for evidence-based practice	Occupational Therapist-led, team-based Quality Improvement (QI) on person-centered adult physical rehabilitation: Participatory development of a theory- and evidence-based QI guide	An exploration of UK allied health professional interventions for adult cancer patients: A systematic literature review with a narrative synthesis
	Ayano Endo	Kee Lim	Kala Subramaniam and Caitlin Cosgrove	Johanne Filiatrault	Abigail Srikanthan	Valentine Perrelet	Nancy Bagatell	Juman Simaan	Rachel Logue
	Building an occupational therapy workforce pipeline: Recruitment of future practitioners from underrepresented backgrounds	Children and young people's perspective and experiences of a community wheelchair basketball club and its impact on daily life.	Exploring Role Emerging Fieldwork Placements for Occupational Therapist Assistant Students	Development and evaluation of a new fall prevention program for seniors attending adult day centers	Hallowing vs. hollowing of job skills: The intersection of technology, disability, and work	Exploring the support needs of parents of children with autism spectrum disorders during transition periods in Switzerland.	Engaging in practice-based enquiry to reconceptualize and reclaim occupation-centered practice	Decolonising occupational therapy: a Global South perspective	A mixed methods approach to evaluating and improving hand function in older adults
	Lisa Jaegers	Geneviève Masse	Sok Mui Lim	Tsz Wang Rohan Lai	Xin Yi Ho	Hannah Mercier	Imke Buesching	Jean Gajardo	Sonja Gústafsdóttir
	The Justice-Based Occupational Therapy (JBOT) Network: Action Steps to Further Occupational Justice	Il était une fois une ergothérapeute utilisant l'approche CO-OP: l'apport des savoirs professionnels?	Online oral interactive assessment: An innovative, authentic assessment for year-one occupational therapy students	Live-in student programmes in residential aged care - a means to promote meaningful engagement in the intergenerational community	Effectiveness of Virtual Reality in improving knowledge, attitudes and empathy and the influence of demographic factors after attending a dementia awareness workshop	A "Rehabilitation Tune-up" for those with spinal cord injury: Effects on independence and wellbeing	Role of OT in the Intensive Care Unit – experiences and results from an OT practitioner quality circle in Switzerland	A theory-based study of the implementation process and intervention adaptations of the Tailored Activity Program (TAP) in Chile	Impact of personal and environmental factors on health literacy among people 65 years and older in urban/rural Northern Iceland
	Ann McDonald	Liana Nagy	Karina Dancza	Charlotte Tsang	Xin Rong Ng	Marianne Granbom	Epiphany Murebwayire	Line Vionnet	Alisa TeSelle
	The Revolutionary Power of Narrative Ethics: Why Your Client's Story Matters	Ethnic differences in movement behaviour among 8 to 11 year old children	Guidance for practice educators using the Professional Learning through Useful Support (PLUS) Framework	Effect of a modified Lifestyle-integrated Functional Exercise programme (mLiFE) in preventing falls in community-dwelling older fallers: A pilot randomized controlled trial	Evaluating the Effectiveness of Virtual Reality-Based Dementia Awareness Workshop on improving Attitudes, Knowledge, and Empathy in Informal Caregivers	Preventing falls with the LIVE-LIFE program: Pilot outcomes of a multicomponent OT-led intervention addressing health-related and home-related fall risks in community-living older adults	The development of occupational therapy profession in Rwanda: A contribution to rehabilitation service delivery	« C'est dans votre tête ! » : de l'errance diagnostique à un modèle logique d'accompagnement interprofessionnel fondé sur les preuves pour les personnes souffrant d'un syndrome neurologique fonctionnel	Linking Body Cues to Emotions for Elementary Age Children: An Understanding by Design Curriculum for Social-Emotional Learning
	Kristy Payne	Zeynep Çelik	Lynette Mackenzie	Beth Fields	Pedro Serrano López-Terradas	Akane Katsu	Michal Waisman-Nitzan	M. Nicole Martino	Michelle Lapierre

	"What OT is and can be": Facilitating social transformation among low income culturally diverse teens through an emerging adulthood program	Cognitive rehabilitation to improve functioning in children with cortical visual impairment	Profile of professional practice experiences for undergraduate and Master's entry occupational therapy students from the University of Sydney, 2016-2018	Development of the Care Partner Hospital Assessment Tool (CHAT): An Instrumentation Study	Quo vadis, Amadeum robot?	Return to employment after burn injury in working-aged adults: A scoping review	Implementing Pathways and Resources for Enhancing Participation in Inclusive Education: A Knowledge Translation initiative	Lost in translation: Misconceptions of and opportunities for knowledge translation within occupational therapy educational curricula	Knowledge and practices in the activism of people with disabilities from intercultural and feminist perspectives: Towards the construction of a situated epistemology of disability in an anti-ableist key.
	<b>Ximena Porras</b>	<b>Arden Panotes</b>	<b>Andrea Duncan</b>	<b>Lindy Clemson</b>	<b>Edith Hagedoren-Meuwissen</b>	<b>Jennifer Crow</b>	<b>Olivia Jackson</b>	<b>Leen Bouckaert</b>	Q & A
	The motivations and occupational participation of Chilean citizens in the social movement of October 2019	Experiences of Filipino Parents and Caregivers on Occupational Therapy Delivered via Telehealth	A tale of two cities: Role emerging student fieldwork placements in Canada and the UK	Home environmental interventions for preventing falls in older community-residing people: A Cochrane systematic review and meta-analysis	Experiences, needs, opportunities and challenges of integrating 3D printing technology in rehabilitation.	Transforming delivery of stroke education for novice occupational therapists in response to the COVID-19 pandemic: Challenges, benefits and lessons learnt	Development of a mentorship framework in paediatric occupational therapy practice	Guideline adaptation in times of scarcity. Student's learning process linked at the development of a clinical guideline	
	<b>Kathryn Biesanz</b>	<b>Béatrice Ouellet</b>	<b>Marilyn Schneider</b>	<b>Alicia Oestreich</b>	<b>Loek van der Heide</b>	<b>Judy Ranka</b>	<b>Helene Lidström</b>	<b>Helen Buchanan</b>	<b>Alice Pellichero</b>
	Reconciling occupational therapy identity for global healthcare leadership	Listen to our voices: Scoping review on the strategies to foster the active participation of children with disabilities in occupational therapy research	Occupational Therapy Fieldwork Placement in an International Setting: Student, Supervisor, and Stakeholder Perspectives	Stakeholders' safety considerations of an adaptive riding program for adults with dementia and their families	Process evaluation of a new, optimized provision process for dynamic arm supports and robotic arms.	The Upper Limb Performance Assessment (ULPA): A person-centred, occupation-embedded approach to measuring in-task arm and hand use.	Is the Occupational Therapy Intervention Partnering for Change (P4C) feasible for Swedish school contexts?	Contextually-relevant knowledge translation from a systematic review of international literature: A South African experience	Une approche innovante pour entraîner les futurs utilisateurs du fauteuil roulant motorisé : développement selon les principes du transfert de connaissance intégré
	<b>Ines Wenger</b>	<b>Shaima Daher</b>	<b>Naomi Schreuer</b>	<b>Sophie Gaber</b>	<b>Kristina Hoydal</b>	<b>Claire LOZACH</b>	<b>Kirstin James</b>	<b>Amira Tawashy</b>	<b>CaraJane Millar</b>
	Start the inclusive playground re-evolution: Identifying aspects to promote social inclusion	Executive functions as measured in daily life and in the "virtual action planning supermarket" (VAP-S) in children with hearing impairment	Revolutionizing higher education in Israel: Insights and lessons learned from Students with disabilities and Faculty members	Out-of-home participation in activities and places among older adults living with and without dementia: A cross-national perspective	The devil is in the details – creative adjustments with materiality in collective housing for young people	Handi@ccess : étude pilote contrôlée randomisée d'évaluation de l'impact médico-économique d'un suivi en télémédecine en complément d'une équipe mobile chez des patients présentant un handicap neurologique. Retour d'expérience en ergothérapie	Occupational therapy in the Emergency Department: an evidence update.	International Society of Wheelchair Professionals' (ISWP) learning modules for wheelchair service providers.	Global Citizenship and Allied Health Professional Capabilities
	<b>Giedre Kavaliauskiene</b>	<b>Susan Ritchie</b>	<b>Behdin Nowrouzi-Kia</b>	<b>Jacqueline Wheatcroft</b>	<b>Margret Buchholz</b>	<b>Tracey Rehling</b>	<b>Jane Holstein</b>	<b>Leeanne Carey</b>	<b>Nadine Blankvoort</b>
	Focus on social inclusion in community sensory garden ( Interreg Latvia-Lietuva European Regional Development Fund LLI-445 Sensory gardens for social inclusion in LAT-LIT area )	Promoting participation for young people in child and adolescent mental health services: key roles for occupational therapists	The physical, cognitive, and psychosocial demands of clinical placements in occupational therapy at a Canadian University	Adapting and adopting the Australian Clinical Practice Guidelines and Principles of Care for People with Dementia within a hospital network.	Let's stay in touch! How do we enable access to digital communication for people with communicative and cognitive disabilities	Developing and testing occupational therapy intervention in the field of dementia: Is radical change needed to address ethnocentric bias and really make a difference?
